# FROM THE PRESIDENT'S DESK

As Fifth Gear goes to press, we are prepping for our 2011 AGM. I am extremely grateful to Andrew, our VP, who stayed in the VP role a couple of years ago while dealing with extra pressures of his teaching job. Andrew stuck out his term, and managed to sort out some of the issues with the CASC on-line registration, and our Fifth Gear advertising accounts. In addition to his VP duties, Andrew was quick to volunteer at our TAC events. Now that he is stepping down from the Board, I hope he'll still be joining us at our Ice Racing, Time Attack, and Rally activities!

I also have to issue a correction. Last month, I mentioned that Dietmar organized our contract rallies. While Dietmar organizes the Guru Nanak rally, Tim Laye organizes the Zonta. I had the pleasure of meeting Tim at the RSO AGM earlier this year, and appreciate the work he puts into pulling these events together!

I am looking forward to the second year of my term as President. It is very rewarding to serve on the Board, as I get to work with some great people. Everyone is passionate about motorsports, and we not only get to plan some great events, but also get to share some great stories whenever we get together. If anyone has some suggestions, or just questions about our events and how we plan them, feel free to drop me a line or grab me at our monthly meeting. We're always looking for fresh new thoughts.

One of the perks of being President is to get invited to the occasional promotional evening. Back in October, I attended the Fisker Canadian launch event. Fisker is a relatively new car company that wanted to make a premium electric car. I was sceptical as I went to the presentation, thinking back to the failed Bricklin and DeLorean brands. Those companies quickly ran out of money as they tried to ramp up production. It takes a huge amount of capital to get a car company off the ground. Well, my concern was addressed as soon as the presentation got underway.

Henrik Fisker was a designer for BMW and Aston Martin before he started the company,

and his influences can be clearly seen in the styling of the car. He explained that his initial goal was to line up the backing funds, and he has been successful in securing an excellent source of venture capital. He wasn't specific, but he did say that the company has been up and running for years, and they have financing lined up for many more.

The Fisker Karma is the first model to be released. It is a gorgeous 4 door sports sedan (that looks like a coupe). It can run fast, with a 0-60 time of 5.9 seconds using the electric motors with the gas engine driving a generator to give some additional boost. Running only on it's batteries, it has a range of 80kms. It can recharge in 6 hours with a 220V supply, and comes with a solar panel roof to give a charge while parked at the office. The range using the gas engine to drive the electric motors is 400kms. You can imagine the handling, with the car weighing in at over 2 tonnes. That's well over anything in its class.

The price? Around \$100,000. It's really not bad when you compare it to any Aston or BMW 6er.

My personal opinion is that electric vehicles are interesting, but not yet practical. Electric vehicles are more efficient than gasoline powered, but once you run out of juice, it's much less efficient to convert gas to electricity and push around all that weight. Ask any racer, and they'll tell you that weight reduction is the number 1 way to go faster. However the high torque electric motors give these cars a great jump off the start. Then you have to wonder about the battery life. We know how expensive batteries are to replace in our laptops and phones. Imagine how much it would be to replace the battery system in any electric vehicle.

I wish Fisker well, and am anxious to see their other models as they come out. Perhaps they'll release an all-gas version that would take over the luxury sport sedan segment!

Rob McAuley

## **Pre-Season Newsletter 2012**

**Andy Hughes**  
**CASC-OR Ice Race Director**  
[andhughes@sympatico.ca](mailto:andhughes@sympatico.ca)

November 1st 2011

Fellow Racers,

As we enter the 37<sup>th</sup> season up here in Minden, I am pleased to announce that it appears that all our ducks are in a row. I am convinced that increased communication within the Ice race community has improved our sport immensely. The spring and subsequent fall drivers meetings went well with changes to our rules and regulations that will do nothing more than make our sport safer for our competitors and more friendly to our neighbours in Minden.

The new rulebook is already published and available on line at the CASC website, along with the new "fillable" entry forms and rule bulletins. I encourage all entrants to download and fill out the entry forms prior to registration for all race events to speed up the registration process. Many thanks go to Magnum Printing for their undying support for our sport.

With all the upgrades to the fairgrounds last year, a slight change to the track configuration and a blessing from Mother Nature we had a banner season in 2011. The improvements continued this past summer with the removal of danger trees at the track and some improvements to our flooding capabilities.

Those of you that attended the fall drivers meeting and received a copy of the race schedule published in your rulebook, you should fill in the blank at the top for the organising club on week three. That will once again be TLMC, this time organised by Tim "I can stuff a Cadillac V8 into my Fiero" Penwell. A new schedule is also published on the CASC site. Many thanks to all at OMSC that did the legwork for a sixth organising team.

The fee structure has also changed to reflect HST that has reared its ugly head to those organising clubs that need to charge it. See the Entry form on the CASC site. Even though the fees have gone up marginally this year it is still the best bang for your buck where wheel to wheel racing is desired.

I will be hosting a workshop on the Saturday of the Awards Gala held on Saturday, November 12th 2011 from 1:00pm to 4:00pm at the Sheraton Parkway, the first in many years. So for those of you that missed the fall drivers meeting in Ajax, come out and see what you missed! There will be videos and Media available for your perusal. Remember that if you can do it on the ice, you can do it anywhere!

I am looking forward to serving you this season and will see you at the fairgrounds at our pre-Tech weekend on January 14<sup>th</sup> and 15<sup>th</sup> 2012. Saturday 9:00am to 4:00pm and Sunday Noon to 4:00pm.

Yours on the Ice!  
Andy Hughes  
CASC- OR Ice Race Director

## DKW JUNIOR

Here and on the front cover, are some photos Rob McAuley took of Steve Sears' DKW Junior. Steve drove the car thru rain to the October TAC meeting for all to see.

Audi fans, your family tree passed thru here a few generations back.

For some sense of scale, here is your editor with the Junior. The Junior does live up (or down) to its moniker by being somewhat small.

## **FOR SALE**

### **Tires and Rims for 2005+ Subaru STi**

Do you want to get your post-2005 STi dirty but don't want the expense of changing the hubs/brakes to accept 15 inch gravel wheels and tires? Have you become frustrated trying to find 17-inch low profile gravel tires that don't exist?

For Sale: set of 4 wheels and tires good for gravel use, eg Rallycross or course car.

4 ASA alloy rims (17 inch, 5 x 114.3, proper STi offset and hub centric) All four are chipped and scratched as would be expected. You won't be sad taking them into the dirt. More or less straight. Some vibration on the road, but you won't notice it on a rally X track.

4 WANLI snows (copy of a Hankook 409 pattern, 225/45-17) mounted and balanced. Approximately 1500 km on tires. Lots of tread depth (see photo with tip of key showing depth). Good grip in dirt. These are not as good as pure gravel tires, but they work surprisingly well in gravel for what they are, and with these you don't have to spend thousands to try rallyX!

Not separating rims and tires. \$400 for all four, plus bonus fifth rim and tire as a spare -- rim bent and straightened with a hammer, but will work in an emergency!

### **Subaru Impreza Driver and Passenger Air Bags**

Both air bags were removed with care from a 2002 Impreza 2.5 TS with black dash in preparation for ice racing. Both will fit a wide range of Subarus in several body styles.

\$500 for the pair                      bjornbsrkr <at> ca.inter.net                      905-898-7483

### **Gravel Spec Hot Bits 2005-2007 STi**

Hot Bits DT1 suspension for 2005 – 2007 Subaru STi

Good quality, economical, gravel stage-rally specification suspension including solid top mounts for the 2005 to 2007 STi. These are fully adjustable for spring preload and compression dampening. Purchased new. Used only on a TSD/Course car for two years. Never used on a stage rally. All service has been done by the Canadian distributor in Brampton, Ontario. About 3,000 street km since last service (including all seals and fluid) was done. Finish is in good shape on strut bodies but paint has flaked off the springs. \$1000 (I will ship anywhere for the actual cost of shipping – weighs 35 kg. Free delivery in the GTA.)
